

Secure 70

The highly secure, compact collection solution for confidential papers

- Its innovative aluminum design as well as its ease of use thanks to its small dimensions and its extreme mobility have earned it a regular choice by customers looking for a discreet and aesthetic solution.
- The handling handles have been harmoniously integrated into its very compact design. The high security closing mechanism guarantees the protection of your confidential documents.
- If you want to integrate these collectors into the complete waste collection modules, with AGORA terminals you have a wide choice of covering solutions.
