

## EGO 30 sorting bin

By its design and manufacture, the EGO revolutionizes the recycling bin.

- Its unique ergonomics oriented working position is an invitation to selective sorting, and immediately makes it obvious in terms of ease and comfort of use.
- Evolution: the end of garbage bags in offices.
- The EGO has the brand new Easyclean™ DIB container (exclusive patented system), which is used WITHOUT PLASTIC BAG. With its «biodesign» shapes, the DIB bin simplifies and minimizes cleaning time since it can be cleaned in just ONE STEP in less than 5 seconds.
- Hygiene has been enhanced by the use of a plastic material specially developed to provide anti-bacterial, anti-stick and anti-odor qualities.
